

St John's School is a Ministry of Defence School situated in the Western Sovereign Base Area of Cyprus, in the Eastern Mediterranean. It has a variable population, currently there are three hundred students on roll with less than fifty in the Sixth Form. With such a transient population many students only study with us for two to three years so arrive at the start of their A level studies. In light of the recent changes in Level three courses we have decided to offer most of our courses as a two year option only, with only those with A/A\* to choose more than three subjects. The subjects offered and the combinations vary year on year depending upon the staffing and the cohort as does the enrichment programme available.
