

I have been an RAF Firefighter for 19 years and have had various postings and several detachments in that time to the Falklands, Afghanistan and Iraq.

This is our second tour to Cyprus as a family and we are trying to enjoy as much of the island as we can.

I have been married for 14 years and have 2 girls one of whom attends St. John's school at present. I was blown away whilst looking around the school with her by all the amazing facilities and how much the school can offer to all its students and the advantages in life they will get from attending this school.

I feel this is the ideal environment for all children to excel and thrive and wanted to be part of that brilliant environment to help in any way I can.
